Skills

- HTML
- CSS
- JavaScript
- TypeScript
- React.js
- Next.js
- webpack
- Git
- GitHub
- Node.js
- SASS
- Express.js
- Redux toolkit
- React Native

Education

Zero To Mastery Academy

Software engineering
2022

University of Ilorin

B.Sc, Botany/Plant Biology
2018 - 2022

Experience

Lead Frontend Developer

CUBESEED AFRICA, Remote, Nigeria Feb 2022 - May 2023

- Implemented performance optimization techniques using the **lighthouse web browser API**, resulting in a **30%** improvement in page load times, and a **25%** increase in overall site speed, leading to a more seamless user experience and higher conversion rates.
- Spearheaded the migration of a legacy codebase to a modern **frontend framework** using **Typescript and Next js**, resulting in a **50%** reduction in maintenance time and a **25%** increase in developer productivity, enabling the team to focus on new feature development.
- Utilized **React.js** and **Redux** to architect and build a scalable and maintainable front-end application, resulting in a streamlined development process and a **40%** reduction in bug count during QA testing.
- Built a css design library using **SASS** to ensure consistent design pattern across all software application.

Frontend Developer

Dove Payments Gateway, *Remote* Mar 2019 - Dec 2021

- Conducted regular **code reviews** and implemented best practices, resulting in a 20% decrease in production defects and a more stable and reliable software product.
- Contributed to the implementation of **Agile methodologies** for the organization's website rebuild, resulting in a **30% increase** in user engagement and a **20% decrease** in page load times..
- Implemented complex client-side functionalities using **JavaScript and TypeScript**, resulting in improved user interactions, and a **75%** increase in user engagement metrics, such as average time on page and click-through rate.
- Coordinating and maintaining the organization **git and github**'s repositories. Reviewing all pull requests while performing code reviews and maintaining all 6 repositories.
- Integrated **Node.js, Express, and Webpack** into the codebase, resulting in a significant increase in performance and efficiency. This implementation also allowed for more scalable and maintainable code, resulting in a 50% reduction in development time for new features and bug fixes.

Junior Frontend Developer

Jovilan Ventures, *lagos, Nigeria* Jun 2018 - Jan 2019

- Developed and executed comprehensive **unit tests** using **Jest**, achieving 95% test coverage and significantly reducing the number of production defect.
- Created **reusable code** libraries, reducing development time for future projects by **70%** and improving the efficiency of the development team.
